CONFERENCE MAP

AgeTech
Collaborative™
FROM **AARP**®

An unparalleled B2B innovation ecosystem bringing together cutting-edge thinkers in the longevity tech space to champion meaningful advances to make aging easier for everyone.

EXHIBITING STARTUPS

Attune Media Labs creates virtual companions called MiMs to help ameliorate the epidemic of loneliness.

betterleave

Betterleave is a digital health platform on a mission to deliver loss and grief care services to millions.

CardioSignal

Cardiosignal is a medical software company with a technology that can harness billions of smartphones to detect major heart diseases.

Homecare Hub

Homecare Hub is providing alternatives to traditional nursing homes and large senior care facilities through its tech-enabled services platform.

MyUTI

MyUTI provides direct access to affordable testing for urinary tract infections and pelvic health conditions.

perry.

Perry is a go-to perimenopause platform, empowering women with expert advice, a supportive community, and personalized resources.

Pluto Health

Pluto Health is a smart care services platform that unifies health information from disparate sources and discovers best next steps for patients in minutes.

Rippl

Rippl provides specialty dementia care, on demand. Our model expands access to high quality, wraparound behavioral healthcare for seniors, their families and caregivers.

Solidddd

Solidddd has invented vision correction for macular degeneration, with eyeglasses proven to bring good visual acuity to areas of the visual field missing or damaged by AMD.

vitala

Vitala is a clinically integrated platform allowing healthcare providers to empower patients with Lifestyle Prescriptions for improved, measurable health outcomes.

MARKET CONNECT STARTUPS

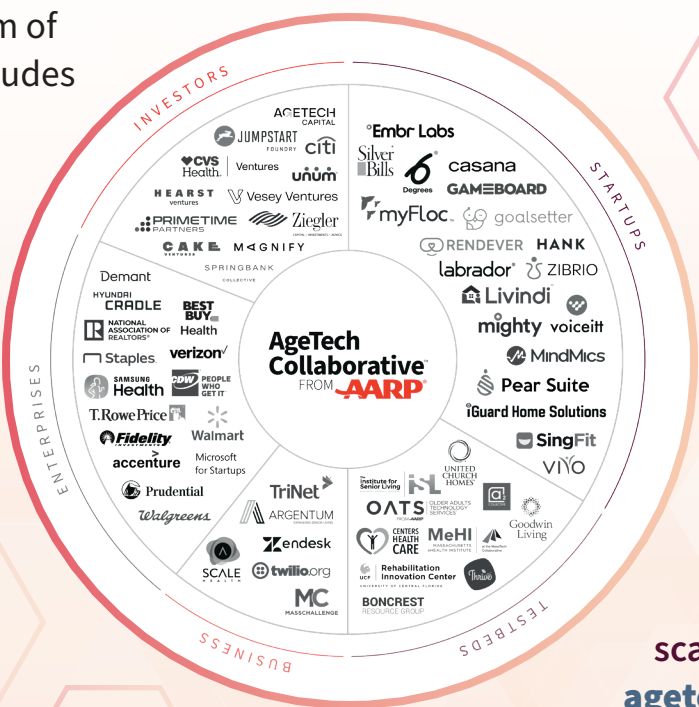

Market Connect links senior executives with solution providers who can tackle their critical challenges.
To connect with these startups, visit the .hlth app.
